Step 1

Clays for Sustainable Concrete

Announcement

Download Share

nt and concrete are the largest manufactured product on Earth, which are the backbone of our modern built structure. The production of cement is...
terized with high energy consumption and CO2 emission, which accounts for 8% of the total carbon emissions around the world. Therefore, reducing...
missions and increasing materials efficiency throughout the cement value chain has become a major issue for the sustainable development. Globally,...
ping low-carbon and sustainable cement and concrete has been also the urgent task of the industry recently.

ed clay-based cementitious materials have been a focus of research in the field of low-carbon cementitious materials in recent years. Taking the most...
Limestone Calcined Clay Cement (LC3) as an example, compared to Portland cement, the clinker content of LC3 can be reduced up to 50% by adding...
one and calcined clay. LC3 also shows outstanding mechanical and durability properties, showcasing significant potential for widespread replacement...
ditional Portland cement. Currently, LC3 has gradually gained popularity and application in regions such as Latin America and South Asia.

ternational Conference on Calcined Clay for Sustainable Concrete (ICCCSC) which has been held in Switzerland (Lausanne, 2015), Cuba (La Havana,...
India (New Delhi, 2019), and Switzerland (Lausanne, 2022) has become an important academic event for low-carbon sustainable cement concrete. The...
CCSC will be held in Nanjing, to focus on low-carbon sustainable cement production, performance, environmental efficiency as well as other topics to...
sented in seminars. It is expected to further promote the development of low-carbon cement and concrete materials in the world and the cooperation...
g countries, which will contribute to the large-scale application of low-carbon cement concrete and the sustainable development of human society.

Call for Abstract/Papers

Authors are invited to submit abstracts of approximately 300 words by August 1st, 2023

Important Dates

Abstract submission starting	2023.05.01
Abstract deadline	2023.06.01
Full paper submission starting	2023.09.01
Full paper deadline	2023.12.31
Full paper acceptance notification	2024.02.01
On-line Registration	2024.02.01
On-site Registration	2024.05.15
